

FERRY SOLUTIONS

Ferries of all types choose PSM to provide level measurement solutions.

Sample ferries equipped by Scanjet PSM :

- Ro-Ro | Pictou | NFL | 1993
- Ro-PAX | Astilleros Españoles | P&O | 2000
- Ro-PAX | Götaverken | Stena | 2020
- 3 x Ro-PAX | Sembcorp Marine | Norled | 2022
- 2 x RoRo | Appledore | Shannon | 2023

As well as the usual ballast, draught and service tank gauging needs, passenger carrying ferries have additional regulations when it comes to safety with flood detection systems being a mandatory fitment

PSM's Connect central monitoring system has a specific approved solution for this requirement which can be separated from or integrated into the tank gauging package.
